Many of these officers served in several different companies during the time they were with the 636th. I have not attempted to record all of their assignments. The letters BFC after their assigned company means they received a Battlefield Commission. This is as complete a list as I could come up with using all available records and help from other members.

The Company Rosters contain the names of the enlisted men some of them received Commissions and may appear on both the Company rosters and the officers Roster. John Fruwirth helped with the "C" Company roster Henry Probst with the Recon Company roster and Don Raabe worked on the "B" Company roster. We decided it would be best to list the names alphabetically and not attempt to give ranks. I will have to take the blame for the mistakes and omissions in the Officers, Medical Detachment, Headquarters Company and "A" Company rosters.
